# Ongoing Pilot - Streamlining Employee Transportation for Client of Avis India

- **The Situation before KleverMind**

  Since employees have flexible work timings, they can book a cab anytime as per their convenience. The booking request is placed either through email or call. The approval process is also manual. Once the request reaches the transport department, cab is aligned as per the availability. The whole process is manual, cumbersome and a costly affair.

- **The Situation after KleverMind**

  Employees can book a cab anytime as per their convenience through the mobile app.  As per the requests count, the system takes the request and optimizes the routes(3-4 employees on a single route) and allocates vehicles accordingly. The user gets the booking confirmation through mobile app. Employee also can add himself to a vehicle if any vehicle is nearby the employee's location.

# Benefits of Corporate Transportation Solutions
